Post: Director General

By: Tamara Shatkova

Company: Adriatic Weddings Croatia

We have partnered with Xsort Web Studio to develop a multi-page corporate website featuring all of our wedding planning services in Croatia.

In addition, the Xsort team provided reliable hosting, implemented SEO optimization, and connected social media network to the site and designed a convenient viewing of the site for users from any device.

The guys from Xsort proved to be real professionals in their field. The work was completed on time, without delays, if any questions arose from our side, the guys did not make us wait long for an answer, they were always in touch and answered all questions in a timely manner.

Special thanks to Alexander Chernyshev, head of the Xsort web studio, for conveniently structuring all the tasks, thereby making it clearer for us the development stages in the process of which our project was. We continue our cooperation with Xsort and are confident that it will be long-term.
